**The Discovery of Hemophilia Scholarships:
All Aboard the ScholarSHIP**

After applying to 16 scholarships during his senior year of high school, a student with hemophilia was awarded 14 scholarships totaling \$40,000 towards his first year of college. Charting the voyage that he embarked on to earn these scholarships and instructing others to do the same thing would be like a deep-sea diver who discovered a sunken treasure, after searching many years, telling them to go on the same expedition. However, students don't want to repeat this arduous journey. They want a quick ticket to the sunken treasure. This workshop is designed to reveal trade secrets and strategies on achieving hemophilia scholarships.
